

MECHANICAL FITTER

Monday to Thursday 7.00am – 5.30pm (4 x 10 hr shifts) + overtime, as required

Mallusk

£12.00 - £16 per hour

We are seeking an experienced Mechanical Fitter who is highly skilled at their craft in mechanical, hydraulic, diesel fitting and operating heavy tools and equipment. You must possess excellent manual dexterity and be physically fit to meet the demands of this position. Your commitment to safety is paramount and you must be able to use critical thinking combined with detailed orientation to ensure we keep our work environment is safe at all times.

You will report to the Workshop Manager and work closely with the wider engineering team to ensure correct manufacturing processes and quality control standards are met.

Responsibilities

- Reading and understanding product work plans and assembly instructions
- Assembling the machinery to a high standard
- Taking part in product development meetings
- Ensuring that all the required parts for assembly are present, parts are properly fitted, aligned and fastened
- Ensuring that quality control standards are met
- Maintaining a production schedule
- Testing products for their functionality
- Troubleshooting and stress testing products to minimise problems or recalls
- Reporting and detailing product malfunctions
- Adhering to assembly safety standards
- Work with the engineering team to assist with design for manufacture and procurement of products needed for manufacture
- Ensure regulation compliance including ISO standards, manufacturing process and engineering best practice is used and documented
- Work closely with the Workshop manager to ensure correct manufacturing process is met
- Ability to build from basic sketches for prototypes if required.

What you will need

- A minimum of 5 years' experience in heavy industry
- Trade qualification
- Experience working in a Manufacturing Environment or working for OEM's is highly regarded
- Drivers License
- Excellent communication skills and enjoys working as part of a team
- Attention to detail is a must and a positive approach to a hardworking environment
- Must be punctual and reliable with a degree of flexibility required at peak business times

Desirable

- Heavy Diesel, Hydraulic or Electrical experience
- Mobile equipment experience
- Gantry crane license
- Forklift license
- Fire Training
- Senior First Aid
- Rigging
- Working at Heights (site specific)
